Press Release

SHOW YOUR SIGN WITH THE WOODY WAGOON™ FORD TAURUS

Take the classic look of your Ford Taurus to a whole new level with a Woody Wagon™ wood Kit! Woody Wagon's new Ford Taurus "Woody" Kit recalls those great "wood" Wagons of the past. Their timeless design and long history now include luxury appointments and comfort.

Our new "Woody" kit projects the same image while being even more exclusive than the original. The simulated "Marine Teak" panels surrounded by our raised, quarter-round "Santa Rosa Oak" trim produces a true three dimensional effect just like the original vehicles. The combination of high-quality vinyl panels and extruded trim is not only beautiful, it is also maintenance-free.

The Woody Wagon™ Ford Taurus "Woody" Kit is designed for the home installer, or can be installed by your local body shop. All components are pre-formed, labeled, and detailed photo-illustrated instructions are provided. Also, tech help from our professional installers is just a phone call away - whether a first-time installer or a savvy professional. Call today for the location of your local retailer or installer, or to order direct.

All the materials provided are OEM-approved and manufactured in North America at ISO 9001 facilities. The use of high-quality materials permits Woody Wagon™ to offer a 3-year warranty against defects in workmanship and materials.
