Press Release

PT WOODY™ PREMIERES A MODERN TWIST TO THE NOSTALGIC STYLE

ROAD TRIP! Grab your board and head for the ocean! The PT Woody™ II Kit is a California dream! This kit is based on our popular "Woody I" Kit, and it was produced for our customers who requested something a little different with a more "updated-retro" twist. With sales running 50/50 for the Woody I & II Kits it proves again the customer is always right! The more streamlined front fender design, the full rear "wood" hatch, lack of trim over the windows, and the simulated planking distinguish the "Woody II" from the "Woody I". Like its predecessor, the "Woody II" also won awards in every show entered, including "Best Modified" at the 2000 Woodward Dream Cruise Chrysler Show at Chrysler's Auburn Hills Museum (judged by Chrysler's own engineers!) Your PT Woody™ will receive admiring glances and smiling approval wherever you go!

Manufactured from high-quality materials, PT Woody's kit durability is exceeded only by their genuine good looks. The "wood" panel material (simulated Marine Teak) and the "wood" outer edge trim (simulated Santa Rosa Oak) is manufactured to ISO 9001 standards. Our application-specific 3M attachment system and quality materials allow us to give you an unprecedented three-year guarantee on our "Woody" Kits.

This is not just another "graphics" kit, or expensive, maintenance intense, "real" wood. The dark "Marine Teak" panels are a heavy "Di-Noc" vinyl and the outer "Santa Rosa Oak" trim is a proprietary raised quarter-round plastic molding that covers the edge of, and rises above, the "Teak" panels. This gives your Cruiser a true three dimensional light and dark "wood" surface just as the original Woody's had.

All components are shipped ready to install. The detailed instructions are designed for the first time installer and consist of two manuals, text and photo, showing all the details of the installation. Also, tech help from PT Woody's professional installers is just a phone call away. Hundreds of our kits have been installed by home enthusiasts, including an 80-year-old grandmother! Call today for the location of your local retailer or installer, or to order direct.
